ABSTRACT

Welcome to the Ministry of Narcotics Control User Manual!

Pakistan Single Window (PSW) Ministry of Narcotics Control User Manual is your step-by-step guide on how to register your Product (Item and Quota Registration), filling Single Declaration (its amendments), obtaining Registration Certificates and Import Permit and its tagging with Single Declaration through the PSW portal. This user manual also provides background of the PSW system while describing its key features.

1. INTRODUCTION

Pakistan Single Window (PSW) is an electronic portal that allows parties involved in cross border trade and transport to lodge standardized information and documents using a single-entry point to fulfil all import, export, and transit related regulatory requirements. The information is transmitted electronically and individual data elements for clearance and regulatory approvals need only to be submitted once. Use of the PSW portal is allowed to authorized users who have completed the subscription process and in case of subscription is expired, they have initiated and concluded renewal process. Once subscribed and registered with PSW, you can access the PSW to perform cross border trade and transit related activities including online payment of taxes and OGA fees.

Use of the PSW portal is allowed to subscribers who have been granted access by the system upon fulfillment of requirements as provided in the PSW Subscription Rules. During the subscription renewal process, the particulars of a subscriber are electronically captured/validated and verified from the databases of the relevant departments in line with the Know Your Customer (KYC) principle.

The PSW aims to simplify your cross-border trade and transport experience. This new platform will facilitate the trader/customs agent to apply online for Item & Quota registration, and to obtain Import permits from the Ministry of Narcotics Control. The application for the same shall be received and processed through the PSW portal. Similarly, sharing of messages and documents required for processing of regulatory approval requests shall be enabled by the PSW.

This new platform will automate all trade related business processes of MNC including documents/registration, and approval/rejection of the Import Permit requests. The Import Permit request shall be generated separately before filing of a Single Declaration (SD), once Import Permit is issued, the same shall be tagged/associated with a Single Declaration at the time of filing. With the PSW system going live, there will be no MNC office visits and manual submission of applications for the issuance of regulatory approvals. The processing of application will be done online, where you can have a clear visibility of the action being performed on the same. For example, if, during the processing of application for the Import Permit, the MNC officer requests for any document required for a consignment, then a notification will be generated automatically by the PSW system which will appear in the trader's dashboard.

2. BACKGROUND

As a signatory to the WTO's Trade Facilitation Agreement (2015), Pakistan has notified the establishment of a 'National Single Window' (NSW) as a 'Category C' commitment with effect from 22nd February 2017. To implement NSW the Government of Pakistan has promulgated the Pakistan Single Window Act, 2021 while declaring Pakistan Customs as the Lead Agency. Pakistan Customs has established a dedicated PSW Company (PSWC), as a not-for-profit Company under Companies Act, 2017, to implement the PSW program. The PSWC has been designated as the Operating Entity under the PSW Act for developing and maintaining the PSW portal in collaboration with 77 different public sector entities involved in regulation of cross border trade in Pakistan. The PSWC will digitize the processes of public sector entities, related to regulation of international trade. This will not only reduce the time and costs but also increase compliance and immensely benefit economic operators like importers, exporters, freight forwarders, clearing agents, shipping companies, transporters etc. The implementation of the PSW program will also enhance government controls and transparency. By creating a national electronic trade and logistics platform the PSW will help Pakistan integrate better into the regional and global single window systems. It will facilitate integration into global value chains and enable Pakistan to become hub for regional and international transit and trade.

3. SALIENT FEATURES OF MINC LPCO MODULE

- A complete solution for online filling and processing of applications.
- It caters to all the needs of MNC related to processing of Import Permits and Item & Quota Registration.
- A complete and comprehensive log of the activities on the trader's online request for Import Permits and Item & Quota Registration will be visible to the trader/custom agent in the system.
- The Dynamic User Management System provided to the MNC will ensure proper performance monitoring against agreed performance benchmarks and key performance indicators.
- Communication between the officers and traders/custom agents will be done through the PSW system.
- Allows efficient clearance of consignments from the port through automation of the processing of LPCO.
- Facilitates compliance of trade regulations through the system relying on HS code/Product Code based description and purpose of export selection.

4. SYSTEM REQUIREMENTS

- o To use PSW Portal on Windows®, the subscriber will require:
 - a. Google Chrome Browser.
 - b. Windows 7, Windows 8, Windows 8.1, Windows 10 or later
 - c. An Intel Pentium 4 processor or later that's SSE3 capable.
- o To use PSW Portal on Mac®, the subscriber will need:
 - d. Google Chrome Browser
 - e. OS X El Capitan 10.11 or later.

5. STEP BY STEP PROCESS

5.1. USER LOGIN

i. Please visit "www.psw.gov.pk" and click on the 'Login' option.

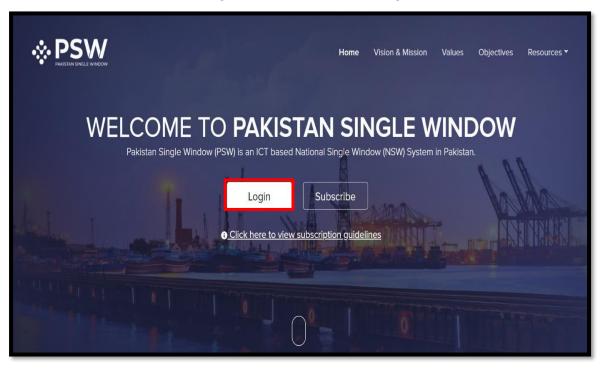

Figure 1

ii. After clicking on the login button, you will be redirected to the login interface. Here, you will be required to enter your login credentials.
