PSW has accomplished a remarkable feat by achieving a new milestone. It has surpassed 77,225 subscribers, processed over 601,135 declarations, and has more than 330,431 LPCOs. These numbers are a testament to the platform's increasing popularity and its impact on Pakistan's trade ecosystem. PSW is gaining traction among businesses and government agencies (OGAs) as they recognize the platform's ability to simplify import and export procedures. By providing transparency and minimizing complexity, PSW is fast becoming Pakistan's go-to platform for trade.

Navigating Through Storms: Pakistan's Economic Uncertainty and the ICT Sector's Bid for Stability

پاکستان کی غیر یقینی معاشی صورتحال،
آئی سی ٹی سیکٹر ایک امید

Pakistan's economy faces challenges amidst political turmoil, with inflation decline slowing down due to recent adjustments in energy prices. To help businesses participate in international trade, Pakistan Single Window (PSW) provides leading trade-related infrastructure.

Initiatives like PSW seek to modernize and enhance government infrastructure, thus streamlining trade and boosting the capacity of the ICT sector. These measures are crucial not only for broader goal of stabilizing and revitalizing the economy.

Pakistan Customs Deploys Pre-Arrival Clearance Module

پاکستان کسٹمز نے پری اریول کلینرنس
ماڈیول لاگو کر دیا ہے

SMEDA organized a one-day workshop on "Import Export Documentation Procedures and PSW" for profitable business growth. This workshop provided information about trade payment terms, import-export documentation, international certification and registration and handling of PSW.

In a move aimed at fostering efficiency and enhancing trade facilitation, Pakistan Customs has successfully deployed the Pre-Arrival Clearance module in the Web-Based One Customs (WeBOC) and Pakistan Single Window (PSW) systems.

The Pre-Arrival Customs Clearance module significantly enhances the WeBOC and PSW systems, allowing members of the trade community to file Goods Declarations (GDs) for pre-arrival shipments seamlessly. This strategic deployment is expected to streamline clearance processes, reduce delays, and enhance overall port operational efficiency.

PSW and the Directors of BankT&D Consulting held a strategic meeting to explore collaboration opportunities to improve financial institutions' trade efficiency. During the meeting, they discussed the integration of the Trade Compliance Navigator to revolutionize trade compliance and streamline their operations.

The Smart project team from the Board of Investment (BOI) recently visited PSW to discuss the development of the Trade Information Portal (TIPP-Tradeverse). During the visit, the team covered various aspects, such as the governance module, change management, marketing strategies, and more. PSW has pioneered Pakistan's trade landscape, and our commitment to innovation and efficiency has given businesses a strategic advantage in the global market.
